OXYGEN SKINNY

CARTRIDGE

Net Contents 930ml - 136g - 4oz

UNT1072 OXYGEN COMPRESSED FOR WELDING APPLIANCES ONLY

DO NOT REMOVE THIS PRODUCT LABEL

OXIDISING AGENT HAZARD

DO NOT REFILL: Disposable bottle. Refilling is not allowed.

Pressurised bottle contains oxygen.

Protect from direct sunlight and do not expose to temperature exceeding 50°C (120°F).

Do not puncture, pierce or incinerate even after use.

Do not spray into an open flame or any incandescent material.

Keep out of reach of children.

This bottle is pressurised.

The weight of the contents is very low as this oxygen is stored in a gas state.

Maximum filling pressure 110 bar.

INSTRUCTIONS FOR USE:

Perform this operation in a well ventilated area free from ignition sources. Check that the rubber seal is in good working condition before attaching the cartridge to the regulator.

Hand tighten only. DO NOT over tighten.

Connect the oxygen regulator to the oxygen cartridge by turning the regulator in a clockwise direction. (It may be easier to connect the oxygen cartridge to the regulator by turning the oxygen cartridge in a clockwise direction).

Regulate to the required pressure using the regulator.

This cartridge uses a right hand thread.

Not for medical use.

Only dispose of completely empty bottles according to the laws of disposal governing the country of purchase.

Use only with equipment designed for disposable oxygen cartridges. Read and follow important safety warnings on this label.

Keep oil and grease away from oxygen regulator and bottle connection.
