SAFETY FIRST

Gas leaks are a serious hazard. They can lead to fires, explosions, and carbon monoxide poisoning. By using leak detection spray, you can identify and rectify any leaks **before they become a danger**.

When used as directed, this non-toxic, easy to use product will clearly highlight gas leaks caused by:

- Leaking O-Rings
- Loose or damaged fittings
- Cracked Hoses
- Incorrect connection to fuel source
- Undetected damage

DIRECTIONS FOR USE

Shake lightly before use. Spray liberally over the suspected area and around joints. Fast leaks will bubble up instantly; Slow leaks will bubble up within a few seconds. Can be used with gas joints or air joints and this liquid is non-flammable. Wipe off any residue after testing has been completed.

GAS LEAK DETECTION SPRAY

125ml

NON-TOXIC
